Once upon a time there lived a wise man by the name of Mamad. He never lied. All the people in the land, even the

ones who lived twenty days away, knew about him.

The king heard about Mamad and ordered his subjects to bring him to the palace. He looked at the wise man and asked:

" Mamad, is it true, that you have never lied?"

" It's true."

"And you will never lie in your life?"

" I'm sure in that."

"Okay, tell the truth, but be careful! The lie is cunning and it gets on your tongue easily."

Several days passed and the king called Mamad once again. There was a big crowd: the king was about to go hunting. The king held his horse by the mane, his left foot was already on the stirrup. He ordered Mamad: "Go to my summer palace and tell the queen I will be with her for lunch. Tell her to prepare a big feast. You will have lunch with me then."

Mamad bowed down and went to the queen. Then the king laughed and said: "We won't go hunting and now Mamad will lie to the queen. Tomorrow we will laugh on his behalf."

Mamad went to the palace and said: "Maybe you should prepare a big feast for lunch tomorrow, and maybe you shouldn't. Maybe the king will come by noon, and maybe he won't." "Tell me, will he come, or won't he?" - asked the queen. "I don't know weather he put his right foot on the stirrup, or he put his left foot on the ground after I left."

Everybody waited for the king. He came the next day and said to the queen: "The wise Mamad, who never lies, lied to you yesterday." But the queen told him about the words of Mamad. And the king realized, that the wise man never lies, and says only that, which he saw with his own eyes.

The following text for questions 32 to 34

Making coloured and scented candles is really quick and simple. What's more, you'll save so much money. If making candle is easy, why do you ever bought one from a shop?

What you need in making candle are **wax, moulds, wick, dye discs, essential oils**, and a **double boiler**. All these materials are available from craft shops. Or if you do not want to buy them, you can improvise with an old saucepan, pyrex jug, or even a sturdy can, in a pot of water. After providing the materials, follow this procedure or instruction in making candles!

..., **melt the wax**. All wax has a flash point, so to prevent it bursting into flames, you must melt it in a double boiler, with water in the bottom pan.

**Then, prepare the mould with the wick**. Thread the wick through the mould and make sure that you leave a good few centimetres sticking out of the hole in the bottom.

**After that, add the scent**. If you want a scented candle, add a few drops of essential oil to the melted wax. You can use any essential oil you like, as long as it doesn't contain water.

**Next step, pour the wax into the mould**. Try and tip the wax into the mould quickly, all in one go, to minimise spillage and air bubbles.

**Then, release the bubbles and top it up**. Releasing the air bubbles will eventually make the candle sink, so you will need to top it up with more melted wax.

**Finally, remove it from the mould** after four or five hours.

Your candle is now ready for display. Remember, you must always leave it for a day before lighting it.
